#105 is an unusual-shaped, two story, frame house attached on both sides. It is approximately three bays wide and four in depth, covered with clapboarding, and the second story overhangs enclosed passageways to the rear yard on both sides. The center bay contains a four panel door with the top section now in glass and to the right is a very attractive, three part window with a tall, vertical pane framed by sections of six small panes with moulded framing. Second story front windows are of 6/6 sash with louvered shutters, and those on the rear are now of 1/1 sash. The metal roof slopes toward the rear and is fronted by an overhanging cornice. The house rests on a low brick faced foundation.

5. Description of physical appearance:

This building is a two story frame house, three bays wide and four bays deep which is covered with german siding. The building appears to have been constructed C. 1870. It is covered by a shed roof of standing seam tin. The main entrance is located in the first bay from the west end of the building. It is a four panel door with the upper portion glazed. Located in the second bay is a large single pane window which it is believed was installed over forty five years ago. Located in each bay on the second level are double hung 6/6 windows with louvered shutters. The rear of the building which is also two bays wide contains 1/1 windows. A rebuilt frame stairway leads to the second level on the rear of the building. Except for the installation of wallboard and plywood panel partitions on the first level, the interior of the building has had few changes in the past forty five years. Interior window and door surrounds, for the most part remain intact.

Date(s) of Alteration(s): 1920,1930,1945

Has building been moved? ☐ yes ☒ no. If so, when? _____
